

Location of SPRING-8

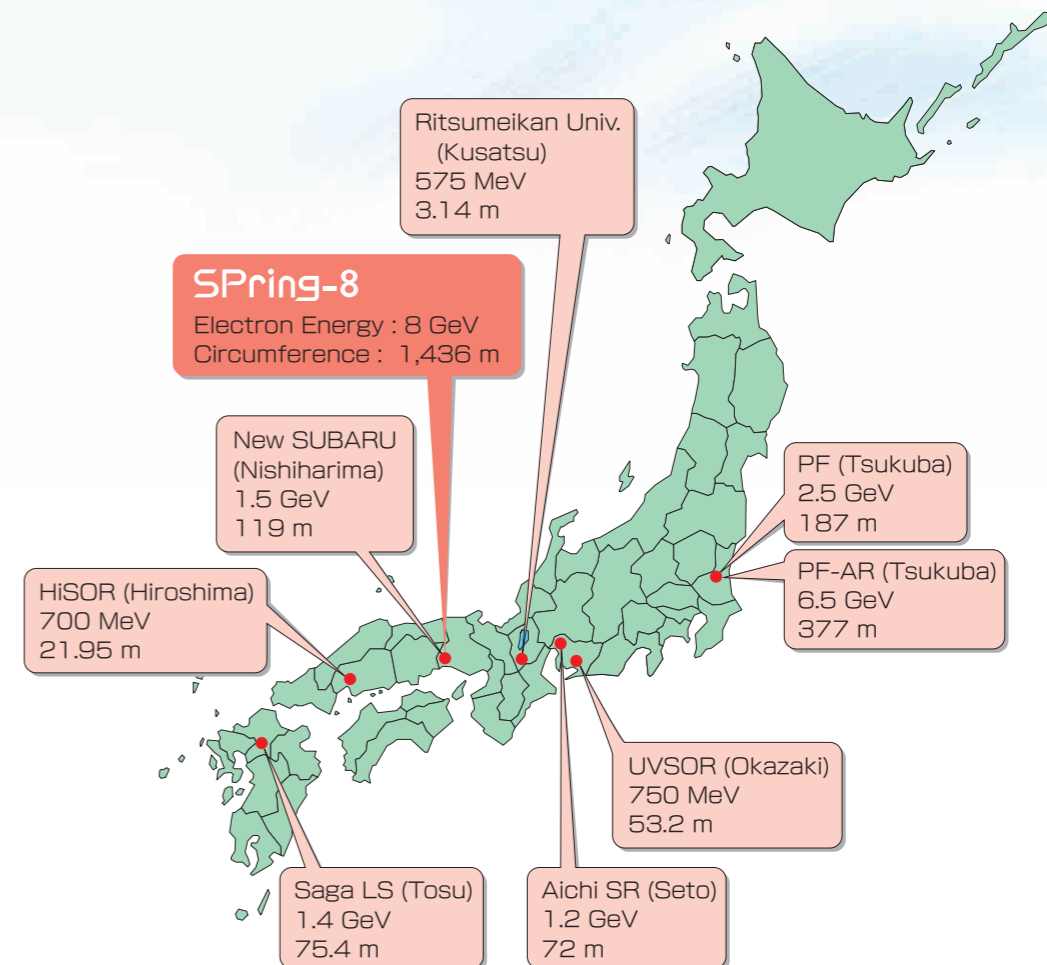

SPRING-8 is located at the north end of the Harima Science Garden City, which is a part of the Nishiharima Technopolis. The Hyogo Prefectural Government is actively promoting the area as an attractive location for activities related to science and technology.

Himeji Castle, also called Shirasagi-jo (White Heron Castle) due to its white outer walls, is located in the center of Himeji City, about 50 kilometers east of SPRING-8. It is the best preserved castle in all of Japan, registered on UNESCO's World Heritage list in 1993.

Synchrotron Radiation Facilities for Public Use in Japan
