

# PROCEEDINGS OF THE 7TH INTERNATIONAL WORKSHOP ON ACCELERATOR ALIGNMENT

Forward

*S. Matsui*

## 1. Status Reports from Accelerator Facilities around the World

<b>Beam Orbit Stabilization at the SPring-8 Storage Ring</b>	1
<i>H. Tanaka, H. Aoyagi, S. Date', K. Fukami, T. Fukui, T. Kudo, N. Kumagai, S. Matsui, T. Nakatani, T. Nakazato, M. Oishi, H. Ohkuma, T. Ohsima, S. Sasaki, M. Shoji, K. Soutome, M. Takao, T. Takashima, H. Takebe, K. Tsumaki, H. Yonehara, T. Yorita, C.Zhang</i>	
<b>TESLA - a Challenge in Planning Large Facilities</b>	9
<i>G. Neubauer</i>	
<b>Survey and Alignment of the Medical Accelerator PATRO at HIBMC</b>	21
<i>K. Mishima, A. Itano</i>	
<b>Status of the SLS Alignment System</b>	34
<i>F.Q. Wei, K. Dreyer, H.Umbricht</i>	
<b>Status Report on the Alignment Activities at SLAC</b>	42
<i>C. Le Cocq, B. Fuss, R. Ruland</i>	
<b>Realignment Magnets of Siam Photon Source Storage Ring</b>	55
<i>N. Sanguansak, S. Matsui, S. Rujirawat, R. Apiwatwaja, S. Rugmai, S. Prawanta, A. Kwankasem, T. Angsuwattanakul, S. Boonsuta, S. Srichan, P. Tarawarakarn, W. Phacheerak, S. Siriwattanapaitoon, P. Chanpuang, T. Ishii and W. Pairsuwan</i>	
<b>Advanced Photon Source - Upgrades and Improvements</b>	59
<i>H. Friedsam, J. Penicka</i>	
<b>Review of Alignment Activities at Jefferson Lab.</b>	67
<i>C. J. Curtis</i>	
<b>Status of KEKB</b>	75
<i>R. Sugahara, Y. Ohsawa, H. Yamashita, Y. Hirasawa</i>	

**Metrology and Surveying at CERN: Recent News and Facts**

*M. Mayoud*

91

## **2. Alignment Instrumentation, Software and Methods**

**Adjustment of the Linac and Transport Line of NSRL**

*X. He, G. Wang, M. Lu, Y. Liu*

96

**Survey and Alignment of HIRFL-CSR at IMP**

*K. Man, Y. Guo, G. Cai, S. Yang, S. Wang*

100

**On the Influence of the Measurement Biases at the Accelerator Alignment**

*Y. Kirochkin*

106

**Eigenvalue Problem in Precise Magnet Alignment**

*K. Endo, K. Mishima*

110

**Alignment Method for 50m Distance Using Laser and CCD Camera**

*S. Matsui, C. Zhang*

127

**Frequency Scanning Interferometry - a Versatile, High Precision, Multiple Distance Measurement Technique**

*P. A. Coe, A. Mitra, S. M. Gibson, D. F. Howell, R. B. Nickerson*

140

**Instrumentation and Calibration at the ESRF**

*D. Martin*

150

**A study of Geodetic Grids for the Continuous, Quasi Real Time Alignment of the ATLAS Semiconductor Tracker**

*S. M. Gibson, P. A. Coe, A. Mitra, D. F. Howell, R. B. Nickerson*

160

**Geodetic Parameterization of the CNGS Project**

*M. Jones, M. Mayoud, A. Wiart*

172

**Survey and Alignment of the Fermilab MiniBooNE Experiment**

*B. O' Sheg Oshinowo*

185

**Magnet Alignment Method, Alignment Results and Closed Orbit Distortion for the SPring-8 Storage Ring**

*K. Tsumaki, S. Matsui, C. Zhang, H. Tanaka, N. Kumagai, J. Ohnishi*

209

## **The Alignment of the LHC Low Beta Triplets : Review of Instrumentation and Methods**

*W. Coosemans, H. M. Durand, A. Marin, J-P. Quesnel*

218

### **Bringing COM Technology to Alignment Software**

*L. Langer*

230

### **Performance Test of the CMS Link Alignment System**

*I. Vila , A. L. Virto*

245

### **Object Oriented Software for Simulation and Reconstruction of Big Alignment Systems**

*P. Arce*

258

## **3. Metrology Aspects of Physics Installations, Photon Beamline Components, Experiments and Detectors**

### **The Alignment System of the ATLAS Muon Spectrometer**

*C. Amelung*

261

### **3-D Measurement of the NSCL Position-Sensitive Gamma Ray Detector Array**

*D. P. Sanderson, W. F. Mueller*

273

### **Alignment of Photon Beamline Components of the SPring-8 Front End**

*H. Aoyagi, T. Mochizuki, M. Oura, Y. Sakurai, M. Sano, S. Takahashi, H. Kitamura*

280

### **Circumference Variations Observed at KEKB**

*M. Masuzawa, H. Koiso, K. Oide, R. Sugahara, N. Yamamoto, M. Yoshioka*

288

### **Study of Charged Particle Storage Ring as Detector of Gravitational Waves**

*D. Dong, C. G. Huang*

295

## **4. HLS (Hydrostatic Leveling System) & BBA (Beam Based Alignment)**

### **Primary Hydrokinetics Study and Experiment on the Hydrostatic leveling System**

*C. Zhang, K. Fukami, S. Matsui*

297

### **The European Synchrotron Radiation Facility Hydrostatic Leveling System - Twelve Years Experience With a Large Scale Hydrostatic Leveling System**

*D. Martin*

308

### **Consequences of Perturbations of the Gravity Field on HLS Measurements**

*F. Becker, W. Coosemans, M. Jones*

327

## 5. Alignment Topics Pertaining to Linear Colliders, Ground Motion, 4th Generation Light Sources and Related Facilities

### Dynamic Pattern Recognition of Accelerator Facilities

356

*F. Jin, T. Wang, Y. Shi, M. Mayoud, J-P. Quesnel*

### Ground Noise Studies Using the TAMA300 Gravitational-Wave Detector and Related Highly-Sensitive Instruments

367

*A. Araya*

### FEM Analysis on the Slow Ground Motion

379

*K. Tada, S. Takeda, T. Itoh*

### An Active Microvibration Isolation System

388

*H. Yoshioka, N. Murai*

### TESLA - the Range of Survey and Alignment Work

402

*J. Prenting*

### High Precision Survey and Alignment of Large Linear Colliders - Horizontal Alignment

413

*A. Herty, J. Albert*

### TTF - the Way to TESLA

425

*W. Benecke*

### The Linear Collider Alignment and Survey (LiCAS) Project

439

*R. Bingham, E. Botcherby, P. Coe, G. Grzelak, A. Mitra, J. Prenting, A. Reichold*

## 6. Poster Session

### Survey and Alignment for BEPCII Storage Ring

452

*X. Ouyang, K. Huang, H. Qu*

### The GSI Future Project: an International Accelerator Facility for Beams of Ions and Antiprotons

459

*I. Pschorn*

### GPS Activities at SLAC

465

*D. Behrend, C. Banuelos, C. Le Cocq*

<b>Alignment of Storage Ring Magnets at SLS</b>	476
<i>K. Dreyer, F. Q. Wei, H. Umbricht</i>	
<b>3D Arcing for Offset Measurements with a Hamar Laser</b>	481
<i>B. Fuss</i>	
<b>WinGEONET: What's New?</b>	482
<i>M. Gaydosh, L. Langer, C. Le Cocq</i>	
<b>Development of a Laser-Based Alignment System for the J-Parc Linac</b>	483
<i>M. Ikegami, Y. Higashi, T. Kato</i>	
<b>Optimization of the ESRF Storage Ring Level Survey and Network</b>	495
<i>N. Levet, D. Martin</i>	
<b>The Method of the Design for Survey Network by Q Matrices</b>	500
<i>K. Mishima, K. Endo</i>	
<b>High Precision Alignment for the HISTAR Project</b>	513
<i>H. Duparz, W. Coosemens, F. Ossart, V. Bourquin</i>	
<b>The VLT Delay Line Rails Alignment System by FOGALE Nanotech</b>	515
<i>F. Derie, E. Brunetto, F. Ossart</i>	
<b>The Fogale Nanotech Technology for Accelerator Alignment</b>	516
<i>F. Ossart, P. Vabre</i>	
<b>Survey and Alignment of the Fermilab D0 Detector: From Assembly to Roll-in</b>	517
<i>B. O' Sheg Oshinowo</i>	
<b>New Database Design for the APS Survey and Alignment Data</b>	549
<i>J. Penicka, H. Friedsam</i>	
<b>The Surveying and Alignment for the PROSCAN Project</b>	558
<i>J-L. Pochon</i>	
<b>Basic Alignment System for SCSS</b>	572
<i>S. Takeda, H. Matsumoto, S. Matsui, A. Suzuki, H. Yoshioka</i>	
<b>ACAMS - Integrated Software for Accelerator Alignment and Measurement</b>	580
<i>K. Tremblay, K. Baggett, C. Curtis</i>	

**Magnet Rearrangement for 30 m Long Straight Sections in the SPring-8 Storage Ring** 590  
*K. Tsumaki, S. Matsui, C. Zhang, H. Takebe, K. Kumagai, T. Nakazato,  
H. Yonehara, N. Kumagai*

**The Metrology of LHC Components Prior to Their Installation in the Tunnel** 604  
*D. Missiaen, M. Dupont, M. Plusquellec*

**Next Generation of Linear Accelerators - High Precision Survey and Alignment of  
Upcoming Large Linear Accelerators** 605  
*A. Herty, J. J. Prenting, M. Schlosser, J. Albert, W. Liebl, H.-G. Maas, H. Munch,  
R. Ruland, E.-O. Saemann, W. Schwarz, S. Seyler*

**Periodic Seasonal Variation of Magnets Level of the STB Ring** 608  
*S. Takahasi*

## **Appendix**

**Development of Photogrammetric Methods of Stress Analysis and Quality Control** 617  
*D. L. Kubik, J. A. Greenwood,*

**CDF Central Detector Installation: an Efficient Merge of Digital Photogrammetry and  
Laser Tracker Metrology** 642  
*J. A. Greenwood , G. J. Wojcik*

**Laser Tracker, a Handy Tool for Metrology and Alignment** 670  
*G. J. Wojcik, S. A. Lakanen*

### Conclusive Remarks

*M. Mayoud*
