Chapter 1	Introduction.....	1
Chapter 2	Beamlines.....	3
Chapter 3	Storage Ring Operation.....	7
Chapter 4	User Operations.....	10
Chapter 5	Publications.....	26
Appendix A	Summary of Experimental Stations	35
Appendix B	List of Publications	43

List of Figures

Figure 2-1	SPring-8 beamline map	7
Figure 3-1	SPring-8 storage ring operations	9
Figure 4-1	Average number of selected proposals	24
Figure 4-2	Selected ratio for each beamline	24
Figure 4-3	Average of scheduled shifts per proposal.....	25
Figure 5-1	Summary of publications	28
Figure 5-2	Total publications in refereed papers.....	31
Figure 5-3	Publication of refereed papers.....	32

List of Tables

Table 2-1	SPring-8 beamlines	4
Table 2-2	Status of SPring-8 beamlines.....	5
Table 3-1	SPring-8 storage ring operations	8
Table 4-1	Proposal category.....	11
Table 4-2	Number of submitted / selected / performed proposals for public use	12
Table 4-3	Number of nanotechnology-related research proposals	16
Table 4-4	Number of trial use program proposals	18
Table4-5	Medical bio trial use proposal.....	18
Table 4-6	Number of the program for strategic use of advanced large-scale research facilities.....	19
Table 4-7	Performed proposals for the protein 500.	20
Table 4-8	Number of long-term proposals.....	20
Table 4-9-1	Power user proposals (2003A~2005B).....	20
Table 4-9-2	Power user proposals (2006A~2007B).....	20
Table4-10-1	Strategy proposals (2004A~2005B)	21
Table 4-10-2	Strategy proposals (2006A~2007B)	21
Table 4-11	Budding researchers support proposal.....	22
Table 4-12	Industrial application proposal	23
Table 5-1	Summary of publications.....	26
Table 5-2	Publications of refereed papers.....	29
Table5-3	Number of publications in journals	33
