The SPring-8 research complex is composed of JASRI, JAEA Synchrotron Radiation Research Center, and RIKEN Harima Institute, all of which are on site. Research activity of JAEA stays intact at SPring-8, although it has administratively withdrawn from SPring-8 management. As mentioned before, JASRI is entrusted by RIKEN with the operation maintenance, improvement, upgrading, R&D and safety management of SPring-8. Since SPring-8 is a facility open to the public, user support is also one of the important tasks of JASRI. The organization that JASRI has formed to accomplish those missions is shown in Fig. 10. Organization of JAEA and RIKEN are shown in Fig. 11 and Fig. 12, respectively.

April, 2005.
Japan Atomic Energy Research Institute (JAERI)
Kansai Research Establishment
Director General  T. Tajima

Synchrotron Radiation Research Center

Director
J. Mizuki

Experimental Facilities Development Group
T. Harami

High Pressure Science Group
K. Aoki

Structural Physics Research Group
J. Mizuki

Surface Chemistry Research Group
Y. Baba

Heavy Atom Science Group
Y. Murakami

Electronic Material Science Group
K. Kobayashi

Simulation Group for Materials Science
T. Sakai

Synchrotron Radiation Administration Division
M. Iguchi

RIKEN
RIKEN Harima Institute

Director
T. Iizuka

Deputy Director
H. Suematsu

Structural Biophysics Lab.
M. Miyano

Structural Biochemistry Lab.
Y. Maeda

Biological Supramolecular Crystallography Lab.
K. Miki

Biometal Science Lab.
Y. Shiro

Structural & Molecular Biology Lab.
S. Yokoyama

Division of Synchrotron Radiation Instrumentation
M. Yamamoto

Coherent X-ray Optics Lab.
T. Ishikawa

Coherent Synchrotron Light Source Physics Lab.
H. Kitamura

Soft X-ray Spectroscopy Lab.
S. Shin

Advanced Electron Beam Physics Lab.
T. Shintake

Membrane Dynamics Research Group
Y. Maeda

Y. Fujiiyoshi

Structurome Research Group
S. Kuramitsu

Quantum Materials Research Group
S. Shin

Advanced Protein Crystallography Research Group
S. Yokoyama

XFEL research and Development Group
T. Ishikawa
