Facility Status

Public Relations Center

North Building (SPring-8/SACLA Users Office, Radiation Control Office)

Main Gate

Experimental Facility for SPring-8 Users

Structural Biology Facility

Synchrotron Radiation Physics Facility

Highthroughput Factory

Annex of Materials Science Research Facility "HOUKOUKAN"

Guest House

Guest House Reception

Cafeteria

Shop Kirari

Structural Biology Experimental Facility

Research Coordination Facility

Materials Science Research Facility

Hyogo-Prefectural Synchrotron Radiation Nanotechnology Laboratory

Main Building

Storage Ring

Linac

Machine Laboratory

Accelerator and Beamline R&D Facility

Hazardous Materials Storage

EUV-Laser Experimental Facility

Mt. Miharakuriyama
341 m

1.5 GeV SR Facility
New SUBARU

Synchrotron

Storage Ring Annex West

XSBT (XFEL to Synchrotron Beam Transport)

RI Laboratory

C1
C2

Medium-length Beamline Facility

SACLA Experimental Facility

SACLA Undulator Building

X-ray Free Electron Laser SACLA

Experimental Animal Facility

XFEL - SPring-8 Experimental Facility

LEPS2 Experimental Building

TOYOTA Beamline Experimental Facility

SACLA Accelerator Building

1 km-long Beamline Facility
